

Top Categories by Total Price

A small number of product categories contribute the majority of total sales, indicating higher customer demand for specific product types.

Monthly Comparison of Delayed and On-Time Orders

Most orders are delivered on time across all months, indicating efficient delivery operations. However, delayed orders slightly increase during peak shopping months, suggesting higher logistics pressure during high demand periods.

Payment Method Analysis

Credit cards are the most frequently used payment method among customers, showing a strong preference for flexible digital payments

State-wise Sales Analysis

Sales are concentrated in a few high-performing states, indicating stronger customer demand in specific regions.

Seasonal Sales Patterns

Sales vary across quarters, with higher revenue observed in later quarters of the year, suggesting seasonal buying behavior and increased customer activity during festive or promotional periods.
